MAYUR CHAVAN

ANALYST/SOFTWARE ENGINEER

I am an PL/SQL developer working primarily on Oracle Technologies [ERP], and all its child functionalities. I also have foundational knowledge on tools/technologies like Oracle Reports, Oracle-Interfaces, Oracle Forms etc. with a desire to keep learning new technologies. A quick and persistent learner, I love to explore and learn new technologies. I prefer gaining knowledge from actual work experience and not just theory.

PROFESSIONAL EXPERIENCE

1. Capgemini Technologies Service India Limited SEP 2022- Present

- Worked on multiple Oracle technologies being a part of the technical team as well as worked on some functional side related to oracle ERP . [Like : Project's and Contract's, OTL timecard, WEB ADI, Data loader.]
- Understanding the business process and delivery process.
 - Specialized in **SQL and PL/SQL programming Tool**. Also trained on multiple Oracle tools like **Reports and Forms**.
- Specially worked on **JIRA and Service now tool** to resolve client tickets.
- Performed packaging and documentation work for new Bespokes and done delivery work.
- Development of new oracle reports as well as provide support to existing reports.
- Successfully resolved **200+** support requests from delivery teams within SLA.
 - Worked on multiple R&D activities exploring new technologies.

PROJECTS

Thales AMS 2023 [Oracle ERP]

- Primarily worked in oracle technical EBS team as well as worked as functional team part.
