MAYUR CHAVAN

ANALYST/SOFTWARE ENGINEER

Experienced **Oracle EBS technical developer** with over **2 years** of expertise in **Oracle Application R12** in **OM, PO, AR, AP, GL** modules. Proficient in creation, personalizing and customizing **reports (XML and RDF), forms , O2C & P2P Cycles, RICE** components and writing **PL/SQL** procedures, packages, and functions. Seeking to leverage my skillset and experience to drive technical excellence and deliver impactful solutions as a dedicated Technical Consultant.

PROFESSIONAL EXPERIENCE

1.Capgemini Technologies Service India Limited SEP 2022- Present

- Creation of new oracle **report**, personalization and customization of **forms** in **Finance, Order Management, Purchasing, Payables, and Receivables** modules, meeting specific business requirements and enhancing system functionality.
- Created and optimized packages in **PL/SQL** to streamline business processes, resulting in increased efficiency.
- Prepared detailed **Technical Design Documents** (TDDs) for support projects, ensuring a clear roadmap for implementation.
- Worked closely alongside Functional team leads and business users to gather and grasp project requirements, effectively translating them into technical solutions.
- Independently progressed the build of RICE objects from technical design documents to completion.
- Resolved production issues in **AR, AP, OM, PO, GL** modules.
- Demonstrated **expertise in PL/SQL** by developing and maintaining complex procedures, and functions, to support Oracle EBS applications.
- Played a role in customizing **RICE components** to enhance system capabilities and meet business requirements.
